

*“Finding Your Sound”*

*Specializing in Beats Creation, Song Writing, Recording, Mixing, & Mastering*

CEO/Founder:  
Purnell A Blackmon II

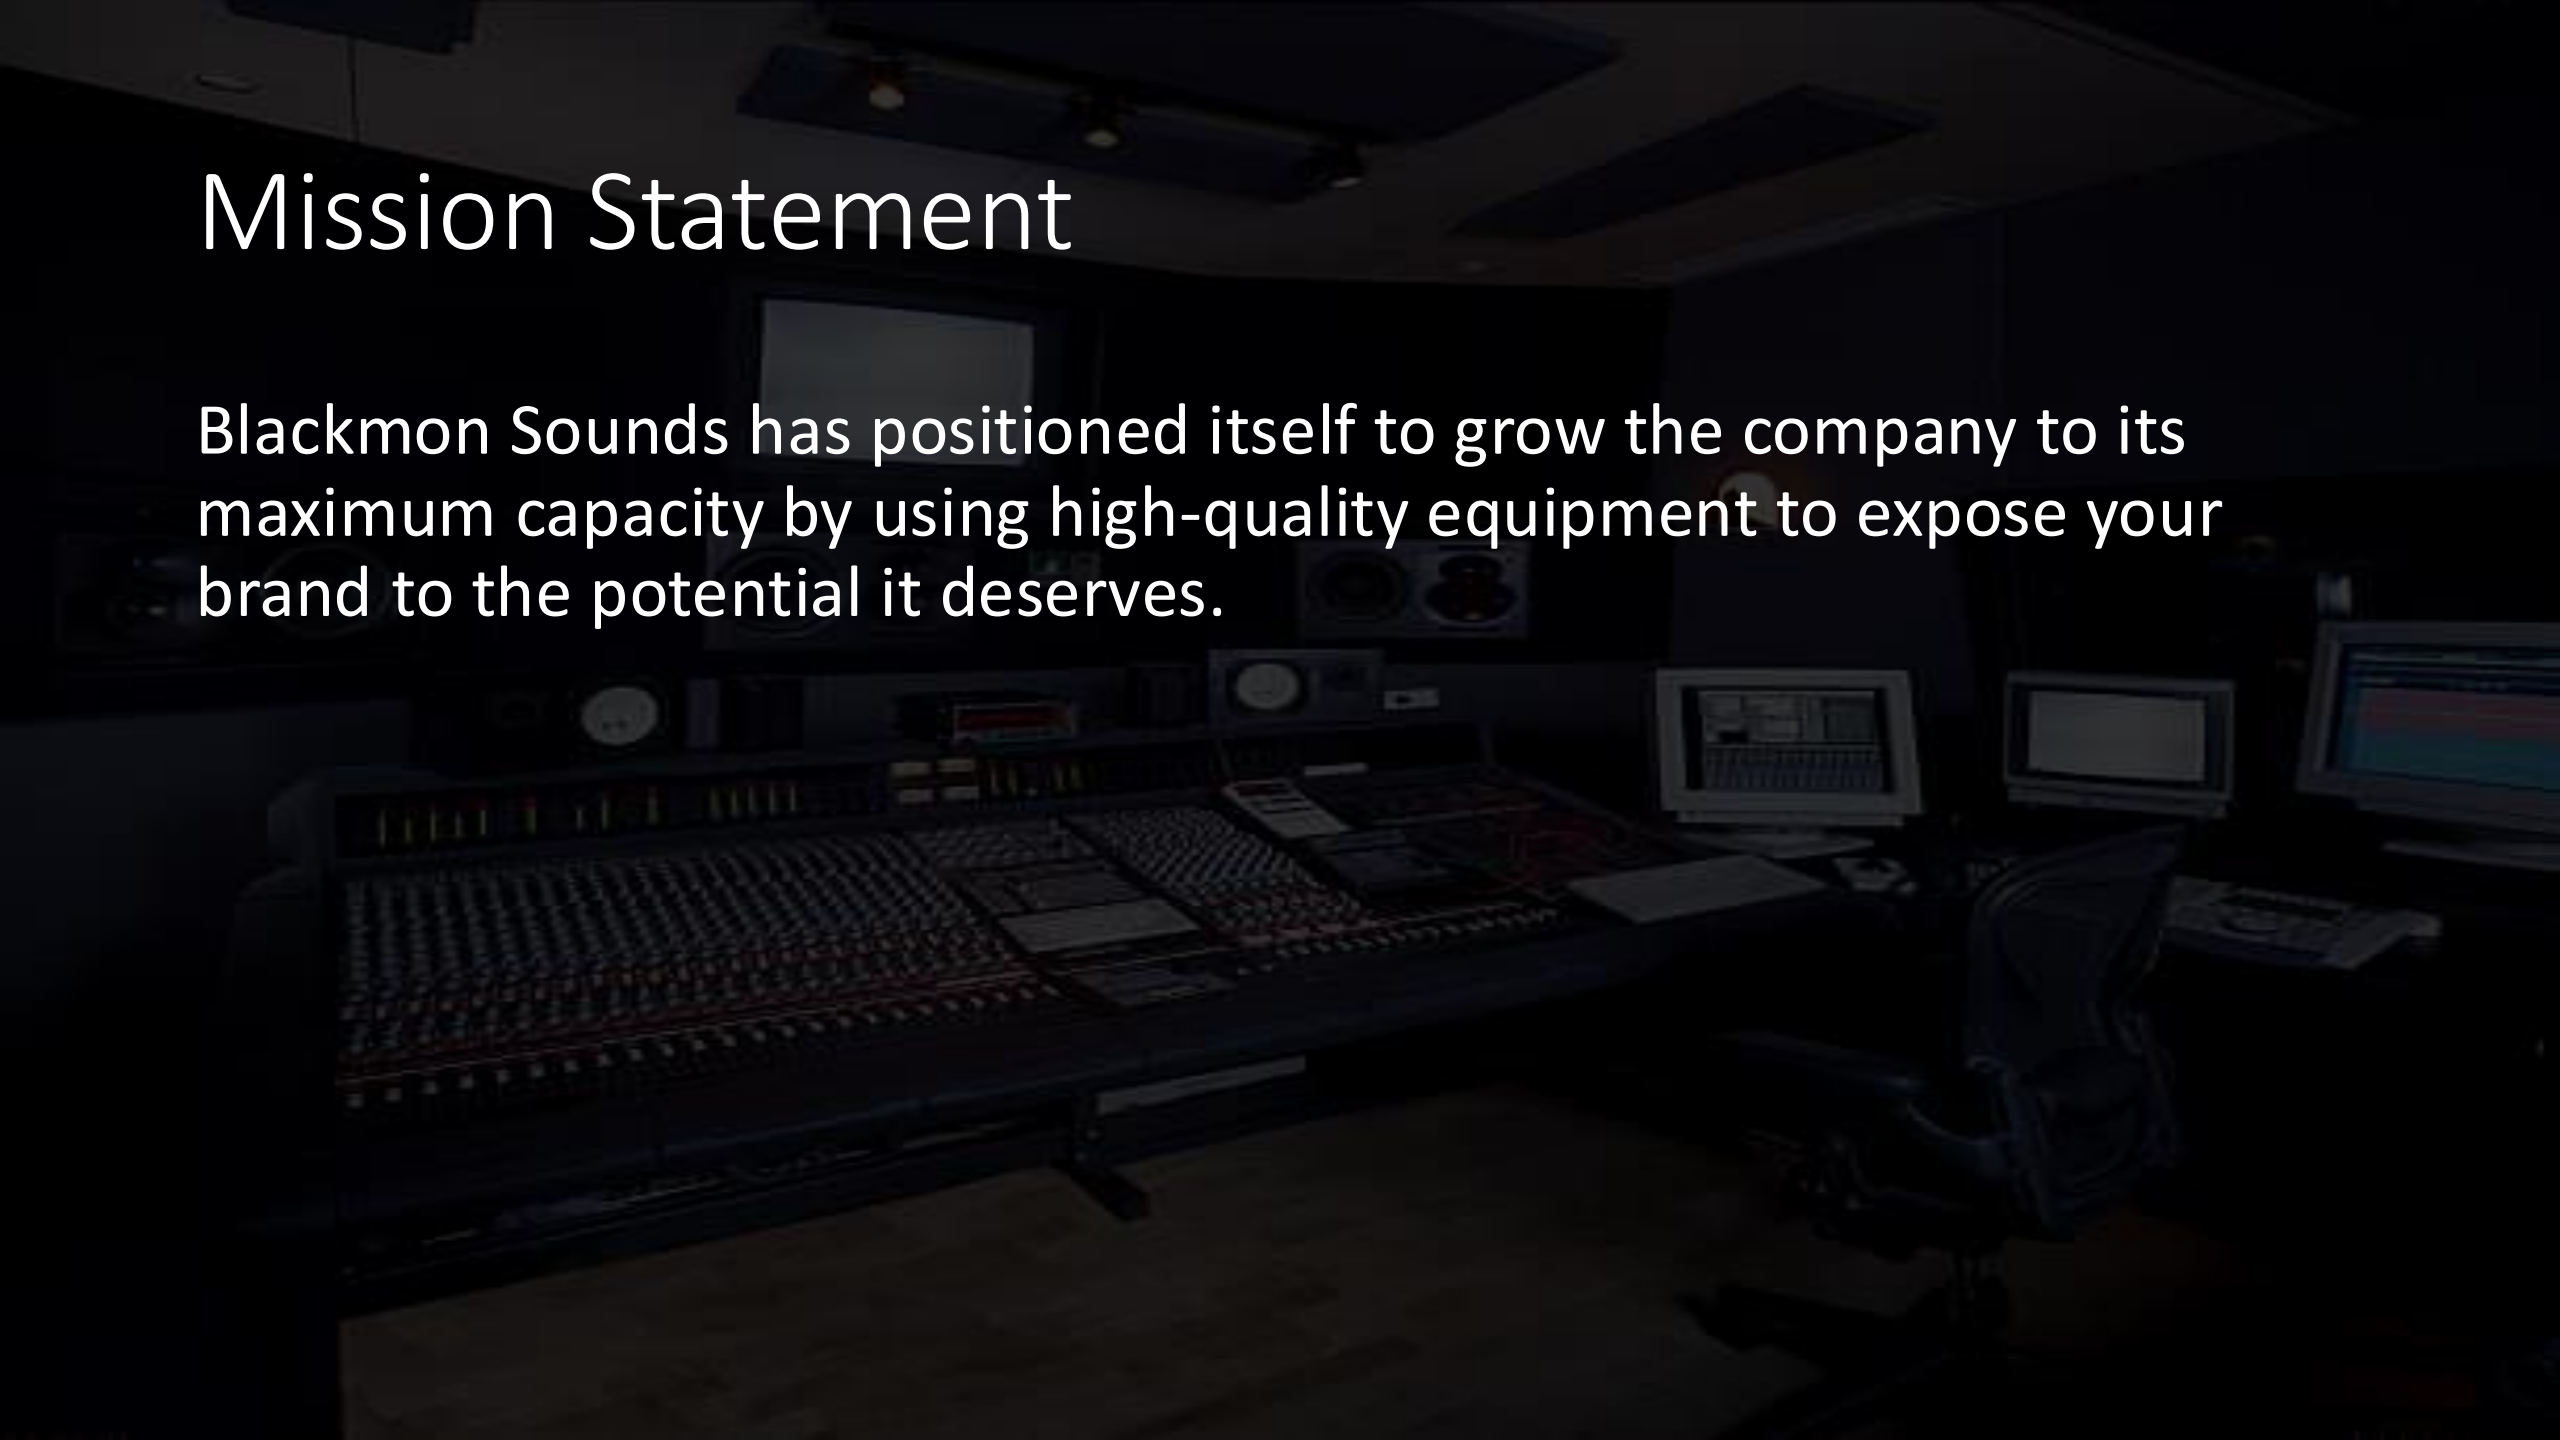

# BLACKMON SOUNDS, LLC.

Founded in 2025, Blackmon Sounds LLC was started by Purnell Blackmon, II to promote and utilize his educational background in audio engineering to expand the structure of his company by creating and developing beats, song writing, recording, and mixing & mastering,

# Mission Statement

Blackmon Sounds has positioned itself to grow the company to its maximum capacity by using high-quality equipment to expose your brand to the potential it deserves.

# AVAILABLE SERVICES

Blackmon Sounds offers comprehensive in-house audio design services, including writing, composing, recording, mixing, and mastering. We evaluate each client through extensive collaboration and a collection of demos to develop a unique sound. Before completion, the client approves each stage of the process in writing. Based on the client's contract agreement, the final project is distributed to each client.

Our expertise extends to music production, and we produce high-quality sounds for various platforms by participating in musical podcasts, recording audiobooks, and posting social media content on Instagram, Twitter, Facebook, TikTok, ArtStation, and LinkedIn. Additionally, Blackmon Sounds provides hands-on studio training, equipping individuals with real-world experience in professional audio production.

# BIO

Purnell Blackmon is currently a student at Full Sail University, studying audio engineering. Purnell's journey in audio engineering began at the age of 15 when Purnell started creating Purnell style of music from the comfort of Purnell's bedroom. Over time, Purnell has expanded Purnell's knowledge and skills through Purnell's education at Full Sail. Purnell's ultimate goal is to become a professional audio engineer at a dream recording label, where Purnell can create music in Purnell's style and make a living doing what Purnell loves, not only for himself but also to support Purnell's family.

# Marketing

Blackmon Sounds is an innovative and rapidly growing audio engineering start-up dedicated to redefining the industry. Our platform offers real-time competitive pricing, a creative and relaxed recording environment, and strategic social media exposure to ensure your projects reach the right audience. Unlike major studios such as TreSwall and Digital Studio, we prioritize a personalized, accessible, and cutting-edge approach.

Our client acquisition strategy centers on leveraging social media to build brand awareness, networking through referrals, and engaging with emerging artists at live performances. Clients can visit our website to explore our services, compare pricing, and book sessions with ease. We cater to businesses and artists seeking fresh, unique sounds and high-quality production—without the long turnaround times.
